Are you overwhelmed by your healthcare options or just not sure that you have the coverage that's right for you? Primerica has partnered with easyMed Insurance Services to help make the process of selecting a Medicare plan easier.

Medicare can be really complicated. In fact, most people don't know that original Medicare (Medicare Parts A and B) doesn't cover everything. Below are some building blocks to help you understand Medicare a little better.
Medicare's Building Blocks

First: enroll in Original Medicare (Parts A and B) when you become eligible.

Then: if you are looking for additional coverage, consider your options.

Option 1, Traditional Medicare: keep Original Medicare and add a Medicare Supplement Plan (Medigap) and also get a Medicare Part D Plan to have your prescription drugs covered.

Option 2, Medicare Advantage: enroll in a Medicare Advantage (Part C) Plan, which combines the benefits of Parts A and B, may offer additional benefits and may also include Part D prescription drug coverage all in one plan.

Option 1
Traditional Medicare

Option 2
Medicare Advantage (Part C)

Original Medicare

Part A

Part B

Additional coverage options can be purchased to complement Original Medicare

Part D

Medigap

Medicare Advantage (Part C) combines Part A, Part B* and usually Part D

*You must continue to pay Part B premium.

HOW
WHERE
WHEN
WHY
WHO

When deciding what Medicare coverage is the best option for you, here are some key questions to consider:

Are you in good health or do you have chronic conditions or special medical needs? Which prescription drugs do you take regularly? How much do you spend?

What doctors do you see regularly and for what kind of care? How would you feel about seeing a new doctor?

Are you eligible for any healthcare coverage besides Medicare? Will you keep that coverage when you retire?

How much did you spend on care last year? Do you expect similar costs this year? How does healthcare fit into your budget? Will you need financial help to pay for Medicare premiums?

Researching your options is a good idea.

To learn about plans and policies available in your area, you can speak to a licensed agent at easyMed Insurance Services. They may be able to help compare plans from multiple insurance carriers based on what is available in your geographic region and provide customized information regarding coverage options.
